Product Tags ❓

Safety Goggle

For Product Description, enter / attach the following:

i)   Company Logo / Product Brand logo

ii) Description of the product / Product Features

iii) Technical Specification

iv) Product brochure (refer to Image Management Tutorial to learn how to convert pdf to jpeg)

v)   Product Video (refer to Add Video Tutorial)

This section is very important as it can help make your products more searchable via google. As such, for the "Meta Tag Keywords", you should enter the keywords that buyers will normally key in when they google search for your product.

For example, if you are selling "Safety Goggle". Key in the following:

* Meta Tag Title	Eye Protection, Safety Goggle | Am sales and Marketing Sdn Bhd
Meta Tag Description	3M 1623AF Safety Goggles feature a wrap-around design for greater peripheral vision, anti-fog coating to minimize fogging and a hard-coated polycarbonate lens offering scratch resistance and 99% reduction of ultraviolet radiation (UVA and UVB) from natura
Meta Tag Keywords	Am sales and Marketing, Safety Products, Safety Supplies, Eye Protection, Safety Goggle, 3M, Averest, Malaysia B2B Marketplace, Ecommerce, Malaysia Suppliers
Product Tags 🛈	Safety Goggle

Brand, Product Name, Company Name

Short description of the product

Company Name, Product Category, Purpose, Product Type, Brand, Related / Application industry etc. Use comma to separate keywords
Do Not enter Model Number/Specs here.

General Product Name

Do not use special characters such as *&^$ in these sections. Otherwise, an error message will appear when you save the upload.

Enter the weight of your product per unit so that the system can calculate the delivery fee to charge the Buyer in addition to the product price.

Please make sure you have filled up this section to ensure that a delivery fee is charged to Buyer.

This is only needed if the product size is Bulky (Big).
Weight & dimension is used to calculate the shipping fee to be charged to the customer. If you enter the product dimension here, the system can compare the shipping charge between weight and dimension. The system will charge customer the higher price of the shipping charge.
