5 Click on Save once done and the Option Value will be displayed on the Product.

1 Select your Option Name

2 Select your Option Value & Update the product quantity

3 If you have additional price to charge for different models or size, you may add the **incremental** price here

4 If the product have different weight for different models, please add the **incremental** weight here so that the system will charge customer the correct shipping charges based on the weight.
For example, if TBS0001 weight is 20kg and TBS0002 weight is 25kg, you should input 5kg here. The 20kg is input in "Data" tab as shown in the next page.

The most basic model weight is input here.

By doing so, if customer purchase:

- i) TBS0001 model, the shipping charges will be charged based on 20kg;
- ii) TBS0002 model, the shipping charges will be charged based on 25kg.

The shipping charges is computed based on the approximate rates by weight provided by logistics partner.
